Planning for health

Every year we need to think carefully about how and where we spend our budget. What are our priorities and how are we going to improve health of our local patients, public and communities? How can we make sure that you have a choice and are involved in the decisions that affect you? If you would like to find out more and be involved, why not come and join us?

We always offer a nice cuppa, a bite to eat and a friendly smile.

Booking is essential!
