Dudley MCP – The Next Chapter

We know many of you have been involved with developing our new model of care – the Dudley Multi Speciality Community Provider. We have continued our work with our partners, and the development of our MCP has moved at pace over recent months.

The MCP as an organisation will move from a concept to being a reality during 2020 and we would like to tell you about all the work that has been going on and share our next steps, so that you can help to shape the next chapter in our vision for a new integrated healthcare provider that delivers real benefits for the people of Dudley.

Come and join us and meet some of the team including Harry Turner, Chair of the MCP and Stephanie Cartwright, Interim Managing Director and of course Dr Steve Mann

Booking is essential!
