Dying Matters Dudley presents **The Birth of Death**

Join us for a totally stunning solo performance from Joanne Tremarco on The Birth of Death. Described as poignant and full of beauty and humour, let Joanne take you on a journey that addresses death – the elephant in the room. Joanne draws on end of life conversations with her mother and her training as a death doula and adventures as a Lucid Dreamer.

We are setting off on a journey to lift the taboo that surrounds talking about death and preparing for end of life.

Booking is ABSOLUTELY essential!
